

Academic Affairs System Updates December 2012 ABA Meeting

- › Stephen Hamilton
- › Manager, Application
Development and Data Management
- › Office of the Executive Vice
Chancellor for Academic Affairs

Academic Student Employment System (ASES)

An online system that helps manage the selection, assignment and hiring process for TAs, Readers, Tutors and UGIAs.

Replaced paper, e-mail, spreadsheets with consistent, documented process.

Academic Student Employment System (ASES)

- > Launched April 2011
- > 45 Academic Departments and Programs so far
 - > All Academic Affairs divisions and schools and SIO
- > 12,647 applications submitted
- > 8,139 assignments

Academic Student Employment System (ASES)

Future Enhancements:

- > Associate-In
- > Descriptions of Duties
- > Routing for exceptions
- > Tie in evaluation results

Online Evaluation System

Allows students and instructors to submit evaluations:

- > Students -> ASEs
- > Students -> Graduate Courses
- > Instructors -> ASEs

Replaced paper, Scantron, Survey Monkey surveys with standardized online questionnaires.

Online Evaluation System

- > Piloted Spring and Summer 2012
- > Launched Fall 2012
- > Reports always available online
- > Mobile interface

To date:

- > 16,212 student ASE evaluations
- > 1,847 graduate course evaluations
- > 667 instructor ASE evaluations

Online Evaluation System

Future enhancements:

- > Integrate results into ASES
- > Grad course instructor photos

CAPE

Allows students to evaluate
undergraduate
courses/instructors

- › Updated online system for Fall
- › Portal page for students
- › Student sign-on access
- › Mobile interface

CAPE

Future developments:

- › On-the-fly reports
- › Customizable queries
- › Downloadable data
- › Possible integration with Evals system for departments/faculty

Instructional Management System (IMS)

Online system manage course needs, including scheduling, textbooks and other course materials, and computing resources

- > Rolled out Fall 2010
- > New system Fall 2013

Instructional Management System (IMS)

Challenges:

- > Low adoption rate
- > Lack of flexibility
- > More analysis needed
- > Additional systems (Bio IMS,
CSE Course Scheduler, Summer
Session IMS)

Instructional Management System (IMS)

Challenges:

- > Low adoption rate
- > May not meet everyone's needs
- > More analysis needed
- > Additional systems (Bio IMS, CSE Course Scheduler, Summer Session IMS)

OSD System

Online system to manage
database of students for Office
for Students with Disabilities,
and to communicate with
students and departments

> Summer 2013

Thank you.
