

Draft - UC San Diego Initiatives

Goals

- Offering a well-rounded education and overall experience that develops students who are capable of solving problems, and leading and innovating in a diverse and interconnected world; and by developing, adapting, and adopting new forms of pedagogy
- Being a diverse and inclusive community of scholars where learning is accessible and affordable to all
- Creating and disseminating leading-edge research and discoveries that transform lives, shape new fields, and advance the frontiers of knowledge
- Driving economic development, shared prosperity, and social and cultural enrichment regionally and globally

Initiatives

1. Create an engaging environment and an embracing culture for students with personal academic and career advising and mentorship
2. Rethink curriculum, pedagogy, and education delivery mechanisms, including technology enhanced learning
3. Strengthen co-curricular experiences and activities
4. Enhance equity, diversity and inclusion on campus
5. Attract, retain, and grow our top quality diverse faculty body
6. Grow a high quality and cost effective graduate program
7. Identify emerging and future trends and strategic thrusts to increase our impact and enrich society
8. Evolve structures and processes to identify future trends for investment and foster innovation, risk taking and collaboration on-campus and beyond
9. Strengthen our community engagement and public service, and increase awareness of UC San Diego's impact
10. Provide access to high quality patient care
11. Enhance financial sustainability, through new revenue and efficient use of existing revenue
12. Cultivate a people- and service-oriented culture that unlocks our potential
